OLIVE GROVE

Olive Grove

Scattered with fresh sprig motifs, the Olive Grove range introduces a little welcome greenery to every interior.

The collection holds fond family memories for Raine & Humble designer Kerry Bower, who often forages for plants and flowers with her dog Milo in neighbouring parks and gardens. Once home, these would be turned into experimental plant dyes, and the process became an immersive way to capture the colours of nature.

Available in pastels, earthy tones and an evocative deep green, the distinct slender shape of olive leaves and branches appears on oven mitts, aprons, tea towels, door stops, cushion covers and placemats.

And for the ethical shopper on -the-go, the Olive Grove range also extends to a selection of stylish totes.
